Amendments to the Specification

Please replace paragraph [0059] with the following amended paragraph:

[0059] Recognizing that applications typically require the use of sequence specific primers, the standard primers as used in the present invention further include "capture sequence" nucleotide portions. The preferred capture sequences referred to herein are Cap01 RT primer capture sequence (Oligos etc., Inc, Wilsonville, OR) or Cap 02 primer capture sequence (Oligos etc., Inc, Wilsonville, OR) and further preferably are Cy3® RT primer capture sequence (Oligos etc., Inc, Wilsonville, OR) or Cy5® RT primer capture sequence (Oligos etc., Inc, Wilsonville, OR), and are represented below.

Cap 01 RT primer capture sequence:

5' - ggC CTC ACT gCg CgT CTT Ctg TCC CgC C - 3'; and (SEQ. ID. NO. 1)

Cap02 RT primer capture sequence:

5' - CCT gTt gCT CTA TTT CCC gTg Ccg CTC Cgg T - 3'. (SEQ. ID NO. 2)
